Co-Managed LogRhythm

LogRhythm MSSP

CUSTOMER FIRST DESIGN

Did You Know?

- LogRhythm North American Partner of the Year in 2022.
- Many SIEM MSSPs limit your access to your own data, rule-sets, integrations, and ability to mature the toolset.
- Unfettered client access into the entire SIEM, including configurations, rules, data, and our work.
- Includes out-of-scope engineering hours with every co-managed client, at no additional cost.
- MDR service and LogRhythm's SOAR capabilities upgrade availability.
- You choose where to host the SIEM, and store your data.

Get The Most Out Of LogRhythm
24x7x365 With Total Visibility

LogRhythm is not just wide, but deep, when it comes to features and capabilities. Simple logging and basic correlation is standard operating procedure. Security Orchestration, Automation and Response (SOAR) comes a part of the core solution, with playbooks, case management, and remediation actions that can be triggered with the SIEM, and carried out by your other security toolsets. In addition, there are advanced User and Entity Behavior Analytics (UEBA) capabilities built in, endpoint monitoring, threat modeling, compliance mandate alerting and reporting, proactive threat hunting via MITRE mapping dashboards, and NDR available as well. Are you taking advantage of everything LogRhythm can do?

Experience the power of next-generation cybersecurity with our industry-leading Co-Managed LogRhythm Services, designed to provide real-time monitoring, advanced threat detection, and swift incident response for your digital ecosystem around the clock. Our team of dedicated security experts utilize your LogRhythm SIEM to deliver the most value possible. With our 24/7 monitoring, triage, investigations, customized deliverables, and 100% client visibilty metholodgy, you can not only trust in our expertise, but verify it. We're here to safeguard your valuable assets and ensure the security and stability of your digital environment. Our Managed LogRhythm Services will fortify your defenses, protect your reputation, and drive growth with confidence.

CHALLENGE

- Lack of toolset knowledge
- Ample staffing issues
- Set it and forget it not working
- Inability to mature the system
- An MSSP is too expensive
- Too much noise!
- Too complex to customize
- Are we using it correctly?

OBJECTIVES

- Retain LogRhythm expertise
- 24x7x365 security coverage
- Outsource care and feeding
- Achieve what it can do
- Starts at $3,000/month
- Teach it what is normal
- Engineered to your needs
- Gain peace of mind with ProCern

RESULT

97%

Clients that realize more value from the system than before.

55%

Cost savings by migrating a VPC-based LogRhythm instance, to a hybrid setup.

85%

Average reduction in MTTD and MTTR to threats in client environments.

SOLUTION

Maximize Your LogRhythm Investment With ProCern

Gain around the clock coverage and delierables to meet your needs

Realize the value expected pre-sale, with measurable ROI.

Meet and report on compliance mandates with ease.

Partner with ProCern today to meet and exceed the objectives listed above, at a fraction of the cost of doing it yourself. We are a tried, trusted, and awarded service provider for LogRhythm. We can take the heavy lifting of running your SIEM off your plate, and enable you to only focus on what matters, instead of daily care and feeding. In addition, we can achieve the value that LogRhythm is capable of delivering, no matter the time or day.

Don't be fooled by another SIEM vendor promising plug and play success or MDR services based on SIEM-like rulesets. Realize the actual solution you're looking for from providers that have been doing it for decades!

BENEFITS

24X7X365 EYES ON GLASS COVERAGE

Have you ever tried to staff a 24x7x365 operation? It is very hard and very expensive, even more so with security professionals. ProCern can give you around-the-clock coverage for a fraction of the cost of doing it yourself.

UNFETTERED ACCESS INTO OUR WORK

No more hiding behind certifications and saying "just trust us", trust but verify. Our co-managed approach gives you, the customer, full visibility into what we do, how well and quickly we do it, and unfettered access into your system at all times.

TRIAGE, TUNING, INVESTIGATIONS

These are only a few of the deliverables you can expect with our service. In short, we take all the heavy lifting of running a SIEM at its potential off your plate, from admin, to engineering, and false positive removal.

CONSTANT MATURING OF THE SIEM

ProCern understands that a SIEM is never fully deployed, too many things change, plus they're capable of so much. We strive to constantly mature LogRhythm, we even include out-of-scope engineering hours at no extra cost for all our clients.
